DEAN C. LOGAN
Registrar-Recorder/County Clerk

February 11, 2020

TO: Supervisor Kathryn Barger, Chair
Supervisor Hilda L. Solis
Supervisor Mark Ridley-Thomas
Supervisor Sheila Kuehl
Supervisor Janice Hahn

Sachi A. Hamai, Chief Executive Officer

FROM: Dean C. Logan, 
Registrar-Recorder/County Clerk

WEEKLY STATUS REPORT – MARCH 3rd ELECTION

This is the first in a series of pre-election status reports to inform your Board and the public of our preparation for the March 3rd Presidential Primary Election. The information and data included connect to the County's goals of "Operational Effectiveness" and "Community Support and Responsiveness." Additionally, the reports support the Department's ongoing commitment to fair, accessible and transparent election services for the citizens of Los Angeles County.

The reports include updates on important activities related to implementation of the Voting Solutions for All People (VSAP) initiative, administering the election and providing statistics related to those activities. The reports focus on key areas of the election process: status of Vote by Mail (VBM) ballot mailing; Sample Ballot mailing; vote center worker recruitment/training; and voter education/community outreach including voter registration. In addition, the following *Highlights* section references special projects or significant issues to call to your attention.

Highlights

VSAP Certification

Launched in September 2009, VSAP was developed in response to growing voting system needs and the end of life of the County's legacy InkaVote Plus system. The project transitioned from a research and design project to a full system development and implementation program. Responding to voter preferences and changes in state and federal election laws, VSAP took an unprecedented and comprehensive approach to modernizing the County's voting system. The vision of the project was to implement a voting system through a transparent process that considered the needs and expectation of current and future LA County voters.

The VSAP system went through rigorous functional and security testing as part of the approval process to achieve certification. The County also subjected the system to independent, third-party security and penetration testing that exceeded state requirements. On January 24th the Secretary of State, Alex Padilla, approved the VSAP 2.0 system allowing the County to move forward with full implementation for the March 3rd Presidential Primary Election.

VSAP Demonstration (Demo) Centers

Beginning October 2019 and through January 2020, the Department operated VSAP Demo Centers in communities throughout the County. Demo Centers offered members of the public an opportunity to learn about and use the Ballot Marking Device (BMD), preview the ePollbooks and learn more about the new voting experience. A total of 10 Demo Centers spread throughout the County, two in each Supervisorial District, were open six days a week. To increase awareness and promotion and ensure maximum exposure in each community, the Demo Centers rotated to new locations every month. The Department worked very closely with cities, Community Based Organizations and other partners to promote and increase turnout at the Demo Centers.

Sample Ballot and Interactive Sample Ballot (ISB)

Per the California Election Code, the Department was permitted to send Sample Ballot booklets beginning January 23rd. Due to administrative processes related to the Special Vacancy Election for Congressional District 25, a delay was created. Sample Ballot booklets incorporate numerous pieces of information from a variety of sources. Further, the data necessary to generate and mail Sample Ballots is initially sent in a large batch to the vendor that prints and mails. Any delay in production of a portion of the Sample Booklets, as was the case with the CD25 contest, affects the entire Countywide mailing. Therefore, the Department began mailing four days later, on January 27th, and will continue through February 11th. Approximately 5.4 million Sample Ballot booklets will be issued to voters. Voters who have not yet received their Sample Ballot can utilize the Department's "Find Your Voting Information" online tool to access their ISB, find and get directions to the vote center of their choice and obtain key election information. This information can be found on our [website](#).

Vote Centers

Under the new voting model, the California Voter's Choice Act (VCA) requires that the County have a minimum of 754 vote centers. In order to provide increased access for all voters, the Department established a goal of approximately 1,000 vote center locations. Currently, the Department has identified 972 vote centers. The Department continues to negotiate agreements for vote centers and expects this number to continue to grow. The Department will deploy vote centers using three size variations: small, medium and large. Small vote centers will have approximately 10 BMDs, medium vote centers will have approximately 30 BMDs and large vote centers will have up to 50 BMDs.

To inform residents of the vote center locations, the Department has begun mailing a Vote Center Locations booklet to all postal patrons, which includes both registered and unregistered voters. This strategy allows the Department to inform all County residents of the new voting experience, including information on how to register to vote. Additionally, a postcard mailer is on track to be sent to all registered voters listing the six nearest vote centers to their registered address. For up to date vote center information and locations, please utilize our [website look-up tool](#).

Media

The Department launched its largest, full-scale multilingual marketing and outreach campaign in January to promote the new Voting Solutions for All People (VSAP) voting experience. The campaign is divided into multiple phases that will deliver specific messages on how to register to vote, how to request a VBM ballot and how the voting experience will change through VSAP and the VCA. The campaign incorporates local and regional news outlets and numerous media partners throughout Los Angeles County, including broadcast television, radio, print media, social media, billboard and movie theater advertisements, bus and bus shelter advertisements, and public service announcements. The following is a summary of recent earned media opportunities and news releases that have been issued regarding the upcoming election:
